October 20, 2010

To whom this may concern,

Self Defense Pest Control has been servicing my restaurant since August, 2010. I have gone through many pest control companies, and they could not solve my problem.

Mr. Raymond has done a very good job finding my problem and showing me my trouble spots. He educates me on proper placement of towels, mop heads, closing holes, removal of empty cardboard boxes, and other sanitation issues.

I would recommend Self Defense Pest Control to any restaurant or food establishment who needs a very good pest control exterminator. He is honest and reliable.

Yours,

Ben Zsu  
Owner
