To: Everyone seeking Pest Control Service

I am writing this letter with a heart of gratefulness for an outstanding job done by Mr. Raymond Burke. Mr. Burke was very professional and personable before, during and upon completion of the job. His knowledge of the pest that were in my home, along with his ability to inform each member of my family on how to combat the problem was very comforting.

Mr. Burke took the time to explain to us the treatment options available, the cost of the options and the best treatment for the problem. I am really confident that he provided the best possible treatment for our home without trying to financially destroy us or lead us into a financial black hole that would take months to recover from. Mr. Burke genuinely cared about salvaging as many house hole belongings as possible.

I am really grateful to have found Self Defense Pest Control in the Greystone Co-op Connections list.
